

Fall News Letter
Village Residents,

We will begin flushing the water system **October 10th and ending by the 14th**. This is an important function in maintaining our water system as well as the water quality. During this time your water may become discolored and have a different taste.

-CHLORINATION NOTICE -

We have received permission from the Michigan Department of Environment, Great Lakes and Energy (EGLE) again this year to feed **chlorine** into the water supply during the fall water system flushing. **Starting October 10th**, we will begin feeding chlorine into the water supply. We will then begin flushing the water system. This will pull the chlorinated water through the system increasing the cleaning action while adding disinfectant at the same time. We will do our best to keep chlorine levels low. We are trying not to exceed .8 parts per million of free chlorine. Most municipalities that chlorinate their water try to keep the chlorine level at .2 parts per million. As Tekonsha does not regularly chlorinate the water supply, it is difficult to achieve even chlorine levels throughout town, but it is an important step in keeping the system clean.

How long will we have chlorine in the water?

Chlorine feed will end on October 14th or earlier depending on when flushing is completed. Chlorination will continue for two days after flushing has been completed to insure the system has ample chlorine residuals to finish any disinfecting necessary. It will then leave the system fairly quickly under normal water usage for the Village.

Precautions

Fish, small animals and sometimes plants don't care for chlorinated water. Babies may not care for the

taste when they are not used to it. If you have any concerns it would be prudent to bottle some water before **October 10th**. People with special health needs should take precautions if they're sensitive to changes in their water.

If you have any questions please call the Village office at 517-767-4204, Gary White @ 517-317-3252 or e-mail to tekvillage@yahoo.com

Leaf Pickup

We will begin when we have significant leaf drop, usually toward the end of October and wrap-up **December 1st**. Our policy is to start on one side of town and work our way through to the other - then repeat.

- PILE sticks and brush **separate** from the leaves as they clog and damage the leaf vac.
- **DO NOT rake leaves into the streets**. The area between the road and sidewalk is fine.
- If the leaves don't appear to be in any sort of pile or row, we will **NOT** stop.
- We will not vac leaves in the spring. Leaves need to be bagged for pickup in the spring.

Tire Recycle:

October 24th, 2022 Noon-5pm
Regular Car and Truck Tires Only
NO – Diesel, tractor, loader, or monster truck tires and not tires on rims. Event held at the village office parking lot - **NO EARLY DROP OFFS**.

Streets Update

In 2023, the Village is expected to begin resurfacing 3 streets. Railroad from Main to Elm, Elm from Railroad to Clinton, and Clinton back to Main St. This will loop the Village with more good roads.

Garbage Pickup

Garbage pickup is done every Wednesday. Put your trash out on

Tuesday night to insure you don't miss the truck! We are contracted to pick up only what's in the tote. If you continually have more trash than 1 tote can handle, call the number on your tote to purchase another.

Watch where you park! We need to clear the streets after snow events. Cars parked too close to streets could be damaged by flying debris from the plow truck. **Your garbage cans are at risk too**. Cold temperatures cause plastic to break more easily. Bring them back to the house after trash pickup.

Check your mail boxes to insure it is secure. The Village will repair or replace a mail box or post only if we physically hit it with the plow truck. If it breaks from snow coming off the plows, the Village is not liable.

Disposable Wipes

Are labeled "flushable" please don't. They cause major problems when flushed down toilets. They must be manually removed and can result in expensive plumbing bills.

FYI

The Tekonsha Community Facebook page is run by private individuals and moderated by those individuals. The Village government is in no way affiliated with this site, its operation or views expressed within it.

Help keep everyone safe by clearing snow from around fire hydrants.

All golf carts need to be registered at the Village Office. There is no charge.

Pay water/sewer bills online!!
