

The Village of Tekonsha is once again applying for a Tree Grant through Consumers Power, “Right tree right place”. The grant offers up to 20 trees. Trees are planted by the village on the easement, which is just off the roadway to the sidewalk. If you do not have a sidewalk next to the road we plant 20 feet from the edge of the road.

Trees are not just for beautification they are workhorses by providing energy savings through shading, storm water mitigation through rain interception and air quality improvement through filtration and absorption. What better way to help the environment than having a tree planted and all you have to do is watch it grow. So if you are interested in a tree please contact the village @ 517-767-4204 before July 5th. There is no guarantee that we will receive this grant but if we are awarded trees would be planted around October.
